

Academic Regulations

Fictional reference document for the GenAI RAG workshop

This document is fictional and created only for training and demonstration. It is not an official college policy.

Attendance Requirement

A student must maintain at least 75% attendance in a course to be normally eligible to appear for the end-semester examination. Attendance is calculated using the academic sessions conducted for the relevant course.

Attendance Shortage

For this fictional policy, attendance between 65% and 74% may be considered for condonation subject to institutional approval and applicable documentation. Attendance below 65% is not eligible for the standard condonation process.

Internal Assessment

Internal assessment may include tests, assignments, laboratory work, presentations, quizzes, and other activities prescribed by the course faculty. Students must complete required activities within announced deadlines.

Credits and Course Completion

Each course carries a defined credit value. Students must successfully complete the required courses and credits specified by their program curriculum. Failure in a course may require a supplementary or repeat examination.

Academic Integrity

Students must submit original academic work unless collaboration is explicitly permitted. Plagiarism, impersonation, fabrication of records, and unauthorized assistance may be treated as academic misconduct.
