

Attendance Policy

Fictional reference document for the GenAI RAG workshop

This document is fictional and created only for training and demonstration. It is not an official college policy.

Minimum Attendance

The standard minimum attendance requirement is 75% for eligibility to appear for the end-semester examination.

Attendance Calculation

Attendance is calculated based on academic sessions conducted and the student's recorded presence. Approved academic activities may be treated according to institutional procedures.

Condonation

Students with attendance between 65% and 74% may request condonation subject to approval. Condonation is not automatic. Attendance below 65% is outside the standard condonation range.

Attendance Review

Students should review attendance records periodically and report discrepancies to the appropriate faculty member or department office within the specified period.

Medical and Other Exceptions

Medical or other exceptions are considered only when supported by appropriate documentation and approved through the institutional process. Submitting a document does not guarantee condonation.
