

Student Handbook

Fictional reference document for the GenAI RAG workshop

This document is fictional and created only for training and demonstration. It is not an official college policy.

About the College

Riverside Institute of Technology (RIT) is a fictional institution created for this workshop. It offers undergraduate programs in Computer Science and Engineering, Information Technology, Electronics and Communication Engineering, Mechanical Engineering, and Business Administration.

Student Support Services

The college provides academic advising, library services, placement support, student clubs, counselling services, laboratory facilities, and digital learning resources. The department office handles academic records and the placement office handles recruitment coordination.

General Student Responsibilities

Students are expected to maintain regular attendance, follow academic schedules, submit assignments on time, and comply with examination and campus rules. Students must carry their college identity card while on campus.

Academic Communication

Official academic communication may be issued through the student portal, department notice board, institutional email, or other channels announced by the college. Students should not rely on unofficial messages for examination dates, eligibility decisions, or placement instructions.

Code of Conduct

Students must behave respectfully toward faculty, staff, visitors, and fellow students. Academic dishonesty, harassment, deliberate damage to institutional property, and misuse of college systems may lead to disciplinary action.
