

Examination Rules and Procedures

Fictional reference document for the GenAI RAG workshop

This document is fictional and created only for training and demonstration. It is not an official college policy.

Examination Eligibility

Students who satisfy the prescribed attendance and academic requirements are eligible to register for the end-semester examination. Examination registration must be completed within the announced dates.

Examination Registration

Students should verify registered courses, examination fee status, and eligibility before the registration deadline. Late applications are accepted only when the examination section announces a late-registration provision.

Examination Hall Requirements

Students must carry a valid college identity card and examination hall ticket. Mobile phones and unauthorized smart devices are not permitted inside the examination hall.

Malpractice

Possession of unauthorized material, communication with another candidate, impersonation, or use of prohibited electronic devices may be treated as examination malpractice and referred to the appropriate authority.

Supplementary Examination

Eligible students may appear for supplementary examinations for courses they have not successfully completed, according to the applicable academic regulations and published schedule.

Revaluation

A student may apply for revaluation where the examination regulations permit it. The application must be submitted within the specified period and does not automatically guarantee a change in marks.
